Portfolio: phateeleemarn.github.io/fatima-portfolio/

PROFESSIONAL SUMMARY

Biochemistry graduate with practical training and project experience in data analytics, artificial intelligence, digital tools, and health-related data work. Skilled in data collection, cleaning, analysis and visualization using Microsoft Excel and digital data-collection platforms. Experienced in AI-assisted research and technical content creation, with hands-on exposure to ChatGPT, Claude, Gemini and Perplexity. Developing capabilities in Power BI, SQL, AI workflows and prompt engineering. Strong communicator with an interest in data analytics, digital health, monitoring and evaluation, and technology-enabled decision making.

PROFESSIONAL EXPERIENCE

AI Technical Content Writing Intern 2026
GAO Tek Inc.

- Researched and developed technical content on applications of AI and RFID technologies in manufacturing.
- Used AI tools to support research, drafting, editing and content improvement while maintaining human review.
- Collaborated with an international internship team using digital communication and collaboration tools.
- Prepared and submitted assigned technical content and reports according to project requirements.

Data Analysis & Visualization Intern / Trainee 2026
Hammad Technologies & Consultancy Limited

- Received hands-on training in data analysis and visualization using Microsoft Excel and related digital tools.
- Applied VLOOKUP, XLOOKUP, INDEX, MATCH, IF and COUNTIFS functions to analyse structured datasets.
- Created pivot tables and used conditional formatting to summarize and interpret data.
- Worked on practical data projects involving data organization, analysis and presentation.

AI Fluency Trainee 2026
FlyRank AI Fluency Program

- Developed practical skills in AI fluency, prompt engineering, AI-assisted research and workflow design.
- Worked with ChatGPT, Claude, Gemini and Perplexity for research, drafting, critique and productivity tasks.
- Designed a no-code AI writing and review workflow combining AI drafting, critique, revision and human review.
- Built and published a personal portfolio website using GitHub Pages.

Science Teacher 2023–2026
Private Secondary School

- Taught Chemistry and supported students in understanding scientific concepts through clear explanations and practical examples.
- Prepared lessons, learning materials and assessments and communicated feedback to learners.
- Developed strong communication, organization, presentation and problem-solving skills.

Quality Control Trainee (SIWES) Training Experience
Labana Rice Mills Limited

- Supported quality-control activities in a food-processing environment and gained exposure to laboratory procedures and documentation.
- Applied scientific knowledge, attention to detail and basic quality-assurance practices.

EDUCATION

B.Sc. Biochemistry 2020
Federal University Gusau (FUGUS), Nigeria
NYSC — Katsina State, Nigeria

TECHNICAL & PROFESSIONAL SKILLS

- Microsoft Excel (data analysis, pivot tables, lookup functions)
- Google Forms • KoboToolbox • ODK Collect • CommCare
- AI tools: ChatGPT • Claude • Gemini • Perplexity
- Data cleaning, organization & visualization
- Power BI (developing) • SQL (developing)
- AI fluency • Prompt engineering • AI workflows

- AI-assisted research & technical content creation

- Research • Report writing • Communication • Presentation

SELECTED PROJECTS

Tuberculosis Awareness Survey: Digital data collection using Google Forms, ODK Collect and CommCare; organized and reviewed survey responses for reporting.

Excel Data Analysis Project: Analysed a large structured dataset using lookup functions, conditional formatting and pivot tables.

AI Writing & Review Workflow: Designed a no-code workflow for AI drafting, critique, revision and human review as part of an AI Fluency portfolio.

Personal Portfolio Website: Created a professional portfolio website showcasing AI, data analytics and digital-health skills.

TRAINING & CERTIFICATIONS

FlyRank AI Fluency Program — 2026 • Anthropic Academy Certifications — 2026 • Hammad Technologies Data Analysis & Visualization Training — 2026 • 3MTT Data Analytics Training • BoostHer Data Analysis Course — Young Nigeria Works
